

Farm Bureau Head Says—

JAMES NICOLS.

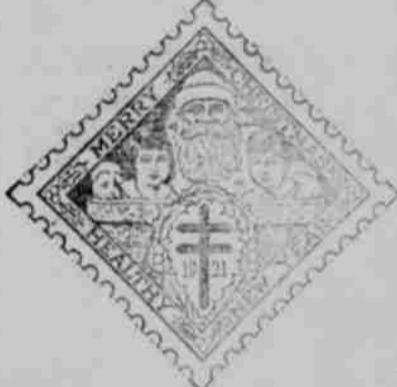

President Michigan State Farm Bureau

The Michigan State Farm Bureau believes in organization and it believes in working for the common good. Because of this policy the Michigan State Farm Bureau feels that it has a big stake in the campaign against tuberculosis waged by the Michigan Tuberculosis Association.

The annual Christmas Seal sale that is about to begin is the only means available for financing this great campaign, and I hope for its co-operation of farmers all over the state. Tuberculosis finds its victims in the country as well as in the city, and the fight against it must be a united fight. By supporting the seal sale farmers will do their share to curb this great menace.

(Signed) JAMES NICOLS,
President Michigan State Farm Bureau.

How One Minister Feels About It

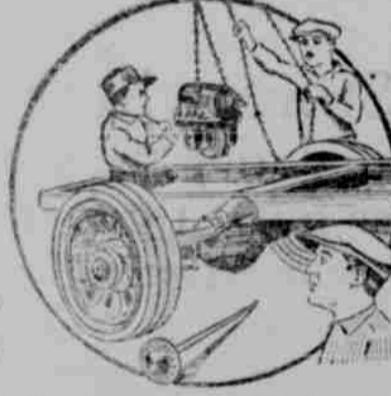

I am a little red seal. I am stamped on letters and packages at Christmas time. I carry the Christmas spirit of goodwill. I go as a gift to the cause of Mankind. Just as the Christ Child came as a gift to a world in trouble, so I go as a gift for folk who are suffering. And I have the satisfaction of knowing I am helping people. Tuberculosis is preventable and generally curable. In 1919 the death rate in Michigan was 7.2%. This year it is only 7.0%. So you see I am helping and winning. I am only a little red seal, but I am in big business. I like to have old folk as my partners and I am mighty tickled to have children. So buy me—everyone! Use me! Send me! And have to the happiest Christmas you ever have known!

Auto
Trucks

are repaired by us with perfect satisfaction to owner and user, as well as the lightest pleasure cars. You must keep your truck in shape for daily use, and you should utilize our expert services for this purpose. It will pay you to retain us to examine and overhaul your trucks and commercial cars every little while. Cheaper to maintain than to buy new trucks.

at Big Stock Show

When Grand Championship in the carcass classes at the recent International Livestock Show went to College Erin, an entry from the Michigan Agricultural College, Michigan pulled down an honor which has been held for years in favor which has been held for years in the "Corn Belt" states, and was expected to remain there indefinitely. Competition for the slaughtered-animal awards is keen at the International, the M. A. C. entry competing against a field of 40 prize winners from all over the United States in winning this year's championship.

Other high places secured by entries from the state college included a third in the Pure-Bred Angus Senior Calf class, third in Senior Yearling Grade Angus Steer, sixth Junior Hereford Calf, seventh Junior Angus Steer, and eighth Hereford Yearling Steer. In addition to a fourth place in the slaughter contest, fields in all these classes ranged from 15 to 45 entries from leading agricultural colleges and private breeders all over the country.

Ramblin' sheep shown by the college did well. First on ewe lamb, third and fifth on winter, and fourth on entire flock sold to the local butcher. This is the first time in fifteen years that the Michigan Agricultural College has exhibited at the International. This year's successes are expected to result in an unusual entry at the big Chicago show, however. Prof. Geo. A. Brown, professor of animal husbandry at the college, fitted the animals for showing and handled them at Chicago.

San-Yak will do all you claim—it is a fine medicine for anemia of the blood and has cured cases of rheumatism of long standing. When one doctors the kidneys he is renewing the whole body. One can always depend on San-Yak.

Yours respectfully,

(Signed) L. P. Bailey, M. D.

Mr. F. E. Hildebrand, 888 Cottage Avenue, Waukesha, Ind.

The doctors said I had Bright's Disease, and high blood pressure of 186. I was sick and dizzy, stiff and clumsy in my muscles. I was so weak I could scarcely walk. My daughter heard of San-Yak, and sent me a bottle nine years ago and before the first bottle was gone I was feeling fine. San-Yak has cured me and for the benefit of others you are welcome to the use of this letter."

MOTHER AND
I THINK IT
A FINE TONIC

We All Had Coughs And Felt
Miserable But Hypo-Cod
Stopped It.

OUR WHOLE FAMILY
KEEP WELL WITH IT

"My mother-in-law and both my children were in a rundown, weakened condition and we all had coughs and felt miserable. None of us had a good appetite. Menopause didn't mean anything to us and none of us had enough ambition to do anything. We just dragged around until one night I read about this wonderful new tonic Earle's Hypo-Cod in the newspaper. We got a couple bottles at the drug store and it did wonders for us. Our appetites came back almost overnight. Our coughs soon left us and we all gained in strength until everyone of us felt as good as ever. I can't praise it too highly and people here in Lansing think so much of it our druggist has a hard time keeping a stock on hand. You'll mighty soon feel like yourself again if you take my advice and use Hypo-Cod," declared Mrs. Albert Heuk, 201 Allen St., Lansing.

It is easy to increase the family's appetite and to drive away wintry coughs, colds and catarrhal trouble. This new more modern, powerful and palatable combination of Hypophosphites, Soluble Extracts of Cod Liver Oil, Malt, Iron, and Wild Cherry extract preparation does the worker sooner and is nice to take even the children love it. The name Earle Chemical Co. is a guarantee of finest quality in medicine. By taking this splendid new tonic right now at this season of the year it is possible to avoid wintry coughs, colds, and more serious sickness all winter long. Hypo-Cod fortifies the system quickly. Drop in at the W. Alex Brunner drug store tonight and get a bottle. The cost is trifling compared with better health—advertisement
